SUMMARY

Computer Engineering undergraduate at Thapar Institute of Engineering and Technology, specializing in Data Science. Skilled in software development, data-driven problem solving, and AI applications. Strong analytical and programming abilities with a focus on building efficient and scalable solutions.

PROJECTS

Flight Management System

March 2025 – May 2025

Database Management System Project

[Flight Management System](#)

- Developed a full-stack Flight Management System to manage flight bookings, schedules, and passenger information. Designed and implemented normalized SQL schemas (`schema.sql`) ensuring data integrity and optimized query performance.
- Used **MySQL** for database management with CRUD operations and relational mappings between flights, users, and tickets.
- Focused on user-friendly interface design and secure backend communication.
- Tech Stack: **Next.js, Express.js, MySQL, SQL, HTML, CSS, JavaScript**

EDUCATION

2023 – Present	B.Tech in Computer Engineering, Thapar Institute of Engineering and Technology, Patiala (CGPA: 9.09, Elective: Data Science)	
2021 – 2022	Class 12th at CBSE	(Grades: 96.8%)
2019 – 2020	Class 10th at CISCE	(Grades: 96%)

TECHNICAL SKILLS

Programming Languages	C, C++, Python, JavaScript, SQL
Web Development	HTML, CSS, JavaScript, Next.js, Node.js, Express.js
Databases	MySQL, SQL Server, Database Design & Normalization
Tools & Libraries	Git, GitHub, NumPy, Pandas, Matplotlib, Scikit-learn, Jupyter Notebook
Data & AI	Data Analysis, Machine Learning
Concepts	Algorithms & Data Structures, Object-Oriented Programming

SOFT SKILLS

Leadership	Team management, Project coordination
Communication	Verbal and written communication
Problem Solving	Analytical thinking, Decision making
Collaboration	Teamwork, Cross-functional collaboration
Adaptability	Quick learner, Flexible
