EDUCATION

Thapar Institute of Engineering & Technology
Bachelor of Technology (B.Tech) in Computer Engineering

2023 – 2027
CGPA: 9.38/10

SRDAV Public School, Dayanand Vihar, Delhi
Class XII, CBSE

2022 – 2023
Percentage: 95.2%

EXPERIENCE

Adobe [↗](#)

Jun 2026 – Present

Software Engineer Intern

- Engineered a data migration pipeline to move customer data from Adobe Campaign Classic (ACC) to Adobe Journey Optimizer (AJO), facilitating a full-scale platform transition to Adobe's next-generation enterprise marketing solution.
- Built a custom MCP (Model Context Protocol) server for Adobe's Real-Time Customer Data Platform (RTCDP), acting as a bridge between AI agents and Adobe's customer data system to enable seamless, automated data access.
- Gaining hands-on exposure to prompt engineering, leveraging industry-leading AI tools including Claude Code and OpenAI Codex to enhance development efficiency within a production engineering environment.

LinkedIn [↗](#)

Feb 2025 – Jul 2025

CoachIn Mentee

- Selected among the top 80 of 10,000+ applicants across India for LinkedIn's flagship CoachIn program, receiving personalized mentorship from LinkedIn software engineers through a competitive multi-stage selection process.
- Secured direct access to LinkedIn's Summer Internship interview in recognition of exceptional performance, while undergoing rigorous training in algorithmic optimization and clean coding standards.

SheFi [↗](#)

Feb 2025 – May 2025

Scholar, Season 13

- Awarded a fully-funded scholarship to SheFi's competitive 8-week Web3 and crypto program, collaborating with a global community of 3,000+ members across 90+ countries while gaining hands-on understanding of blockchain, smart contracts, and DeFi.

PROJECTS

ConverseX — Enhanced Networking with LinkedIn Live

[GitHub [↗](#)]

LinkedIn CoachIn Hackathon [↗](#)

- Won the "Breakthrough project" award among 10+ teams for building "ConverseX" — a plugin that transforms LinkedIn Live into an interactive networking platform.
- As the GenAI lead for our team, developed an embedding-based recommendation model to suggest connections by analyzing shared skills and interests leading to smart user matchmaking and enhanced networking.
- Tech Stack:** JavaScript, Python, Node.js, Express.js, HTML, CSS, Generative AI

Few-shot Language Agnostic Keyword Spotting System

[GitHub [↗](#)]

Smart India Hackathon, 2024 [↗](#)

- Proposed a model capable of identifying and classifying keywords of interest in an audio file even when very few samples are provided for training per keyword.
- Ideated a solution to train a neural network on a large multilingual dataset (e.g., Common Voice) and apply transfer learning to adapt to few-shot keywords.
- Tech Stack:** Python, PyTorch, CNNs, Few-Shot Learning, Audio Signal Processing, Spectrograms, Multilingual Keyword Datasets

Enterprise Retail Management System

[GitHub [↗](#)]

- Developed a CLI-based inventory management system featuring role-based access, automated billing and customer handling.
- Tech Stack:** Python, MySQL

SKILLS

- Languages:** C++, Python, C, SQL, JavaScript
- Artificial Intelligence/Machine Learning:** Scikit-learn, TensorFlow, Keras, PyTorch, Generative AI
- Frameworks/Tools:** Git, MySQL, MATLAB
- Coursework:** DSA, Operating Systems, DBMS, Computer Networks, OOPs, AI/ML

ACHIEVEMENTS

- Achieved perfect 10/10 CGPA (highest in college) in Semester I
- Ranked top of class in core CS subjects including DBMS, C Programming, and OOPs
